Essential SiteVault Tips

Hi,

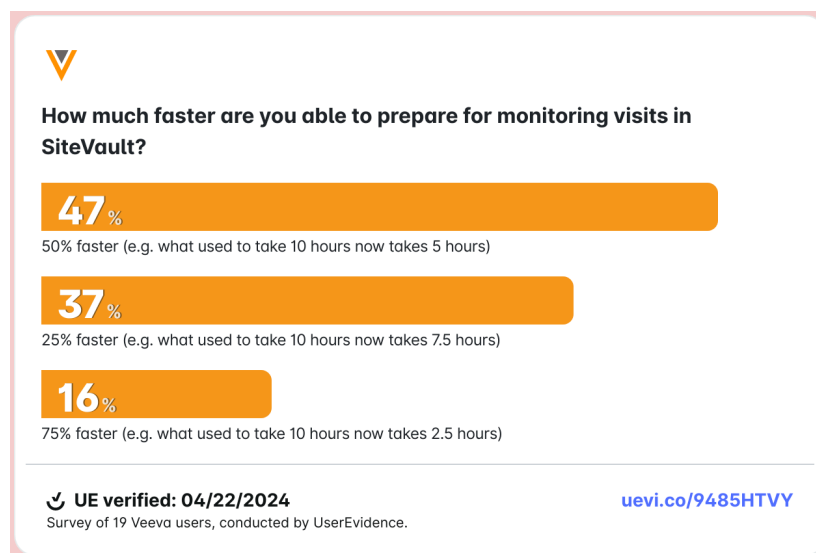

In this month's newsletter, we are really excited to bring attention to a few new SiteVault topics. Be sure to share these updates with your team members!

1. From Paper to Pixels: The E-Signature Revolution

Did you know your staff can sign documents electronically from anywhere, eliminating the need for in-person signatures and speeding up workflows? Join us for an interactive 30-minute webinar on eSignatures in SiteVault. Get expert tips on implementing eSignature into your daily site operations for maximum impact and see a live demo of SiteVault's eSignature and how you can reduce turnaround times and enhance workflow efficiency.

This webinar will provide so much value in just 30 minutes. Register today!

2. Curious to know what sites think of the monitoring features available in SiteVault?

3. Get Ready for the December 2024 SiteVault Release!

Curious to know what's new in the next release of SiteVault? This December release, we have exciting new updates including:

- Study Archiving Process
- eSignature Improvements
- Monitoring Enhancements

Want to learn more? Visit our [Release Notes Page](#) to keep up-to-date on all upcoming release information. Stay tuned for our webinar registration!

3. “What Should I Classify my Document as?”

SiteVault offers standardized documents to make your eBinder organization straightforward and simple. If you are unsure of what document type to classify a document as, use our [Document Types](#) spreadsheet as a reference.

This spreadsheet contains a list of all document types available in SiteVault as well as details including where the document is located in the eBinder, if your monitor can view the document type, and all available workflows.

Have any questions or suggestions about any of these topics? We're all ears! Reach out and schedule some time with the SiteVault Success Team at sitesuccess@veeva.com.

If you would no longer like to receive these emails, please opt-out [here](#).

Thank you,
